Ahmed Attya Mohamed

+201220042990 Ahmedattyamohamed@outlook.com Cairo, Egypt

Professional Summary

I am a Software Developer with great passion to build and implement functional programs. I like to build efficient programs and systems that serve user needs, with a keen eye for detail and problem-solving skills. Specialized in .NET technologies, integration solutions, and enterprise application development.

Core Competencies

Data Analysis | Critical Thinking | Problem Solver | Project Management | Communication Skills | Team Work | Creative | Punctuality

Technical Skills

Programming Languages
C#, VB.NET, jQuery, JavaScript

Web Technologies
HTML, CSS, Bootstrap, MudBlazor, DevExpress Blazor

Frameworks
ASP.NET MVC, Blazor (Web Assembly, Server Side), Xamarin, MAUI, Entity Framework, Microservices

Databases
MS-SQL Server, MySQL, PostgreSQL, SQLite, Oracle DB

Integration & Messaging
RabbitMQ, RESTful APIs, Web Services, Paymob Integration, I-Score

Reporting Tools
SSRS, Power BI, Crystal Reports, RDLC

Version Control
GitHub, Git

Education

University	Degree	Grade	Graduation Year
Future Academy	Bachelor in Management Information System	Very Good	2018

Languages

Arabic

English
Intermediate

Professional Experience

Senior .NET Developer

Contact Financial Holding

2025 – Present

- Developed and implemented comprehensive integration solutions with Paymob payment gateway for secure financial transactions
- Led Synapse system updates and enhancements to improve operational efficiency and system performance
- Managed iScore platform upgrades, ensuring high availability and system reliability
- Designed and implemented RabbitMQ messaging architecture for asynchronous communication between microservices
- Extensive hands-on experience with Oracle Database including performance tuning, stored procedures, and complex query optimization
- Developed and maintained RESTful APIs for third-party system integrations
- Collaborated with cross-functional teams to deliver robust integration solutions for financial services

Technologies: .NET Core, Oracle DB, RabbitMQ, RESTful APIs, Paymob Integration, Synapse, iScore

Senior .NET Developer

Smart Up Software Solutions

July 2022 – 2025

- Coding and implementing Windows Service and Web API to integrate Data (POS transactions data) between two sites
- Coding and implementing MAUI mobile application for auditing POS transaction results
- Coding and implementing Web application (Blazor Web Assembly API ASP Hosted) serving Call Center Orders with isolated MSSQL DB
- Coding and updating features for ERP application (Blazor Server Side)

Technologies: .NET Core, Blazor, MAUI, MS-SQL Server, Windows Services, Web API

Software Developer

All Foods Group

March 2020 – July 2022

- Researching, designing, implementing, and managing software programs
- Testing and evaluating new programs
- Identifying areas for modification in existing programs and subsequently developing these modifications
- Writing and implementing efficient code
- Developing quality assurance procedures
- Deploying software tools, processes, and metrics
- Maintaining and upgrading existing systems
- Training users and working closely with other developers

Academic Instructor

Future Academy

January 2019 – June 2019

- Provided individual tutorial and corrective instruction to students
- Supervised independent and group projects, laboratory work, and hands-on training
- Developed and delivered curriculum addressing course objectives
- Utilized innovative classroom techniques involving students in challenging learning opportunities
- Provided feedback to enhance student academic growth

Key Achievements

- Built mobile application for employees to view salary breakdown and vacation balance using Xamarin & Firebase
- Developed web app for monitoring production state using SPA .NET Core 5.0
- Created HRM (Human Resource Management) web application using .NET Core 5.0
- Built Windows Service and Web API to integrate data between two sites
- Developed MAUI mobile application for cross-platform solutions
- Created Blazor Web Assembly application serving Call Center solutions
- Implemented comprehensive payment gateway integrations with Paymob
- Developed system integrations using RabbitMQ messaging architecture
- Oracle Database administration and optimization for enterprise applications
